**Aims:** For candidates to pass the Re-qualification in order to maintain full First Aid at Work standard

**Objectives:** Inform candidates of changes to FAW standards  
Practice any standard changes  
Demonstrate competency to required standard  
Question & answer session to ensure understanding

### **Target Audience:**

Anyone who has completed a FAW qualification within the last 3 years, and wishes to renew their qualification for a further 3 years.

### **Course Content**

- Changes to standards
- CPR
- Recovery position
- Legal duties
- Competency in new standards
- Respiration problems
- Your role in an emergency
- Revision
- Q & A session
- Assessment

### **Commentary**

The course is approved by the HSE to requalify participants to the full FAW standard. It incorporates the latest changes to HSE FAW standards, in line with the UK and European resuscitation council.

It is mandatory that all candidates must attend both days, and pass the assessment in order to gain the qualification.
